

Summer Holiday Homework- May 2018

FRENCH | Class - VII

Dear Parents

Greetings from École Family..... !!!

“The world has so much to teach us if we are brave enough to explore the unknown and leap into it” - Satori

Time for the homecoming of your daughter is yet again here.....!!! We know how excited you must be. However, soon after the resumption of the school , students would be engaged in preparing for their UT-2 assessment. Hence, we have planned that during break time too, your daughter spares some constructive time towards her studies so that it helps when she resumes school. For the same, we have planned and assigned French summer holiday homework to students. We have ensured to minimize tedious writing work to target the creative side of your daughter by giving her project work focusing on creativity, research and construction.

Let's join hands in realizing the dream that we have seen together for our child. We wish your daughter a wonderful and memorable stay at home and would be waiting for her with bated breath, soon the break finishes.

Best Wishes

French Teacher
